EDUCATION

Bennett University

Sep 2022 – 2026

Bachelor of Technology - Computer Science & Engineering

CGPA: 8.66

Relevant Coursework: Data Structures & Algorithms, Operating Systems, Object-Oriented Programming, Database Management Systems, Computer Networks.

WORK EXPERIENCE

JavaScript/Front-end Intern, [Wingify](#)

Sep 2025 – Mar 2026

- Contributed to **VWO Pulse**, a customer feedback and survey platform used across **thousands of global websites**, by building and enhancing core front-end survey components.
- Developed features across the **AngularJS survey builder** and **Vanilla JavaScript client runtime**, enabling seamless survey configuration and reliable rendering on live customer websites.
- Diagnosed and resolved survey preview rendering issues**, improving stability and usability of the survey builder.
- Took **end-to-end ownership of feature delivery and debugging within sprint cycles**, resolving production bugs and strengthening reliability of survey flows.

Lead Developer, [EzLearn](#)

Sep 2024 – Mar 2025

- Engineered scalable **full-stack applications** for AI-powered learning platforms using **React, Node.js, and AWS Lambda**.
- Built secure **OTP-based authentication workflows** with **Resend** to improve login security and reliability.
- Managed complex datasets by integrating **PostgreSQL** and **MongoDB** for structured and unstructured content.

PROJECTS

TaskHive | Next.js, DynamoDB, AWS Lambda [GitHub](#) | [Live Demo](#)

- Developed a **real-time team collaboration platform** using **Next.js, AWS Lambda, and API Gateway** for scalable serverless task management.
- Designed serverless **APIs using AWS Lambda and API Gateway** to support task creation, updates, and collaborative workflows.
- Built a **drag-and-drop task board UI** and leveraged **DynamoDB** for serverless NoSQL storage.

DSAverse | Next.js, PostgreSQL, Prisma, Recharts.js [GitHub](#) | [Live Demo](#)

- Built an **AI-powered DSA preparation platform** with personalized roadmaps and concept explanations.
- Developed a **practice progress tracker** for LeetCode and GeeksforGeeks, with **interactive performance graphs using Recharts**.
- Integrated the **OpenAI API** for real-time debugging, doubt resolution, and personalized study guidance, backed by a **PostgreSQL schema managed via Prisma**.

SKILLS

Programming Languages C++, Java, JavaScript

Backend Development Node.js, Express.js, REST API Design, Authentication (JWT), API Integration

Frontend React.js, Next.js

Databases PostgreSQL, MySQL, MongoDB, DynamoDB

Cloud & Tools AWS (Lambda, API Gateway, DynamoDB), Git, GitHub, Postman

PROBLEM SOLVING

- Solved **300+ problems** on [LeetCode](#) across core data structures and algorithms.
